

Electrolyte Replacement and Hydration Solution

nuun is a refreshing portable electrolyte replacement and hydration solution. Available in a compact tube that contains 12 tabs — each tab dissolves in 16 ounces of water — nuun can be stored in a pocket, bag or hydration pack. Featuring self-dissolving technology — no stirring or shaking required — nuun's Lemon+Lime, Tri-Berry and Citrus Fruit flavors are light and refreshing. The low acidity reduces stomach irritation, and the hypotonic solution is more efficiently absorbed than water alone or most sports drinks.

Technology Novel

"Criminal Justice Technology in the 21st Century" describes the ways technology is impacting criminal justice. Written by Laura Moriarty, this book from *Charles C. Thomas Publishing* represents the concerns of criminal justice teachers, practitioners and students, and is presented in four parts: criminal justice education and technology, law enforcement technology
